Has the model ever won an award in a NMRA National or Regional Contest?

If yes, What awards? _____

Is this the first time you have entered a NMRA national or Regional contest?

Modeler Name _____ NMRA No. _____ NER No. _____

Street _____ City _____ State / Prov. _____

Country _____ Zip Code _____ Email _____

In entering the model contest I acknowledge I am familiar with and agree to abide by the model contest rules of the Northeastern Region of the NMRA as a condition of acceptance for participation in the model Contest. I further certify that I built the model being entered and that it has not previously won any award in a NMRA Regional or National model contest except those described above, and that I understand that the model can only compete for awards greater than those previously achieved. I further certify that I have answered the questions under "modeler information" truthfully. A receipt for the model will be provided if requested and although every reasonable precaution is taken for the security and safety of the models entered in the contest, the Northeastern Region accepts no responsibility or liability for the safety and security of the models and may require a receipt or identification for return of the model after the contest.

Signature (modeler or proxy) _____

Model Description Form

Revised 9/18/05.
Supercedes all previous forms

Date

Entry No.

Model _____ Scale/Gage _____

Special handling Requirements _____

Be sure to fill out this form carefully. An accurate and complete description of the model and how it was built, detailed and finished will help the judges award the maximum score. A typed description following the order given below may be substituted for this form.

Model Basis: Scratch-built Modified Kit Modified Ready-to-Run If not scratch-built, describe how you changed or added to the existing model or kit _____

Conformity: (25 Points max.) Describe the prototype or prototype intent of the model. Prototype plans, photos and/or other data must be attached to achieve more than 15 pts.

Plans: Drawn by modeler Magazine Article Prototype Kit Plans

Other: _____

Construction: (40 Points max.) Describe the material and construction methods.

Type of Material: Wood Card Plastic Metal Plaster Other

Made your own: Masters Molds Patterns Tooling Artwork Other

Detail: (20 Points max.) Describe the level of detail and list the commercial parts e.g. PSC brake casting.

Appearance: (25 Points max.) Describe the intended appearance: finishing, lettering and weathering.

Finishing Method: Air Brush Hand Brush Wipe-on Paint Stain Chemical Etch

Lettering Method: Hand painted Decals Dry Transfers Photographic Computer Aided

Scratch-Built: (15 Points max.) List each of the parts you made yourself. Strip wood and scribed or embossed siding are considered basic (scratch-built) materials; however, if you cut your own strip wood or siding so indicate for extra credit. Unmodified kit models are generally limited to a maximum of 10 points.
